It's Time to Name Names

I recently came across this story in "Illustrations Unlimited," edited by James S. Hewett.

Some folks recently joined a new church. They'd been assigned to a small faith-sharing group in the congregation under the care of one of the church leaders. They were excited about their new membership and really wanted to feel as though they were a part of the community.

The church, in an attempt to communicate their caring attitude toward new members, sent a letter that did everything but that. It began:

"Dear _____,
We want you to know that we're concerned about you"

That little story brings up two points essential to a parish that wishes to be a welcoming family. The first is, of course, the personal touch. A computer generated letter not only feels cold, but mistakes -- like putting in a blank instead of the person's name -- are common.

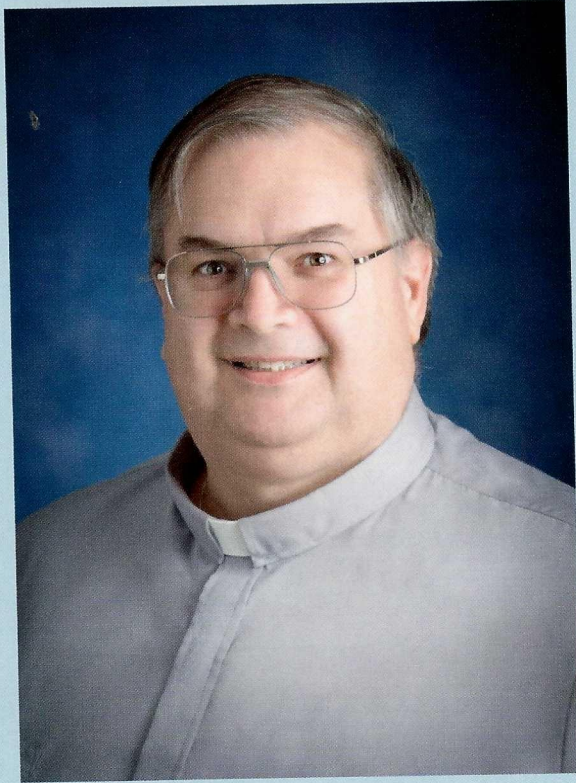

The second point is that a personal touch that actually includes someone's name conveys a genuine sense of caring and hospitality. And that's the main reason for a picture directory: It helps us connect a face with a name.

Often, folks attend the same Mass each weekend. When they mix it up and attend Mass at a different time, they inevitably ask me, "Who are all of these new people?" Well, they're not really new, only new to the person asking the question. A directory can help us to get to know at least a larger portion of the 450 or so families that make up Sacred Heart. And it acts as a wonderful history of this thriving parish in Tonganoxie.

This is my sixth picture directory since being named pastor! I look forward to looking through it, learning a few new names and pondering all the good work that God has done here and will continue to do.
